

**Wick CE Primary School**  
**Long Term Strategic Plan: 2021-2024**

On the basis of our Mission Statement, these are specific goals we have identified for these three years after consultation with children and parents, staff and governors.

1. **Shared vision** : Embed our school's vision and goals so that they are owned by and accessible to the whole school community; children, parents, staff and governors.
  
2. **Flourishing** : Develop a culture of aspiration and enable all children to consistently reach their potential and flourish.
  
3. **Creative curriculum** : Look afresh at our curriculum and find ways to make it more creative, engaging and interactive while continuing to enable children to meet high standards of achievement and progress.
  
4. **Respect within our own community** : Strengthen the ethos of respect for others across the whole school community.
  
5. **Respect within the broader community** : Increase children's awareness and valuing of diversity in our British community and globally.
  
6. **Christian foundation** : Be more effective in demonstrating the school's Church of England foundation so that children have the opportunity to explore and experience what Christian faith means in practice.
  
7. **Learning environment** : Improve our premises and grounds and source ways to generate more income and develop sustainability.
